TFI Independent Travel Support

Learn your Route on Public Transport.

This is Easy to Read information.

Independent Travel Support

The Independent Travel Support service is known as ITS for short.

This service helps passengers with additional needs aged 18 years and over.

It supports passengers to learn to use Transport For Ireland public transport.

The ITS supports passengers to learn to use public transport independently.

Independently means doing things for yourself.

An ITS assistant travels with you and teaches you your route.

They work with you until you are confident to travel alone.

More Information

Transport for Ireland is known as TFI for short.

You can scan this QR code for more information on the Independent Travel Support service.

You can get information on the TFI website.
